REASONS FOR ALLOWANCE

The following is an Examiner's Statement of Reasons for Allowance:

The prior arts of record teach a system implemented with a plurality of members categorized into member classes. Each member has an internal network interface for coupling to an internal network which is used for communications between the members, members can be located in the same enclosure or can be separated over large distances. Receiver members and responder members also have an external network interface for coupling to an external network. Hankinson et al., (U.S. Patent number 6,799,202) is one such example of prior art. The prior art of record, however, fails to teach, singly or in combination failover logic to assign the virtual MAC address of the failed processor to the processor that replaces the failed processor and logic to assign the virtual storage space and defined correspondence of the failed processor to the processor that replaces the failed processor. The subject matter sought to be patented as recited in the claims in this application has practical applications in the field of processing systems having virtualized communication networks and storage.

Any comments considered necessary by applicant must be submitted no later than the payment of the Issue Fee and, to avoid processing delays, should preferably **accompany** the Issue Fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance".

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Nadeem Iqbal whose telephone number is (571)-272-3659. The examiner can normally be reached on M-F (8:00-5:30) First Friday Off.
